About me

Hi there, my name is Jorg. Working over 8 years with design and I love creating web, mobile and product shapes for many companies. My last project, I was working with a team and achieved excellent results.

At the moment I work as freelancer with a small team designing applications for different clients in the finance and restaurant business.

I believe that the foundation for a great job is your private life where you have the possibility of balancing your job out, having fun and enjoying all the work. Well, so here I go, new challenges in the direction of designing, coordinating and managing.

Projeto 02

International Client Scope:

The client created a App and needed a UX reseacher to define how the project should be used by his employes and how it should be shown to the consumer of the company. The App was build for monitor with (Mac) 29' inch display, and could not be used on a Tablet,

After analysing and conducting a vast research, talking to employees, I started to create a figma layout to present to my cliente.
